

## **CREATIVES COLLABORATE FOR MENTAL HEALTH (CCMH)**

In a world where the rise of mental health issues is a cause of concern, our vision is to make a difference by curating creative posts and content to empower people with resources for emotional resilience so they can thrive significantly in life.

ThriveSg is looking to **collaborate** with (***Creatives, Influencers, Artists, Artistes, Musicians, Video & Content Creators***) in meaningful and creative ways, to bring an empowering message of hope about mental health.

We are also keen on collaborating with designers/illustrators/artists on collaboration projects, or in designing special series of posts on our IG. We can provide the content, and we're also open to collaboration on content creation too.

As we are a non-profit organization, collaboration may be on ***a pro-bono or a low-bono basis.***

Let's collaborate for this Art & Mental Health cause & make a difference together!

Please submit your interest in collaboration through this link:
